## SPECIAL PROJECTS

**"Osiyo!"** The Special Projects committee is working on a way to say "Hello" to raising money through our Special Projects raffles. Because the cruise line has regulations that do not allow Kappa to have a dedicated room for selling merchandise, all sales will take place at our meetings. This will not make it feasible to sell jewelry and electronics, as we have at many of our conventions.

The main difference this year will be in the actual items to be raffled. The initial plan will be to utilize gift cards. These will travel easily, and we can facilitate their sales in conjunction with our meetings. As in past years, each state will be asked to donate in the amount of \$150; which is equivalent to what they have been spending the last several years. Ticket sales will also be as they have been before...\$1 each, or 6 for \$5.

The raffles that we have had over the last several years have garnered funds that have been so helpful. We urge each state to promote the sale of tickets so Kappa can say **"Osiyo"** to needed funds, and members can say, **"Osiyo"** to their winnings.

### IRS 990-N (e-Postcard) Filings Past Due!

## ~ \$100,000 Award Money to be Used to Update Classroom Facility ~

**Sherrie Johnson**, (middle) was presented with a check for \$100,000 from Farmer's Insurance Employees Jan Frizzle, left, and April Hendricks. Sherrie was officially named one of five National Recipients of a \$100,000 grant, "Thank America's Teachers...Dream Big!" Sherrie wrote a detailed plan of how she would use the large grant should she win. Her 'dream' was to completely renovate the school's FACS (Family and Consumer Science Department), which hasn't been updated since the school was built in the 1960s. Her inspiring proposal caught the attention of the contest committee. She had titled her dream, "Give a student a meal and he eats once. Teach him to cook and he eats for a lifetime." Johnson plans to put her experience as a kitchen designer to good use by teaching her students

how to build their own kitchens. She intends to update the school kitchen's plumbing, surfaces, and cabinetry, which will allow students to construct their own cooking space by hand. Following the developments of the kitchen design, the students will learn how to use technology to harvest fresh herbs and vegetables with their new portable hydroponic tower gardening system. Wi-Fi oven technology controlled by smartphones and Freeze Dry machines developed by NASA are the cooking utensils of the future that will help students of Clinton High School become the engineers, architects and chefs of tomorrow. The preliminary planning will be Family and Consumer Science coordinated between Farmer's and the school district. Sherrie's goal is to have the new facility in place by August 2018. Sherrie Johnson lives in Weatherford and is a member of Epsilon Chapter, Alpha State, Oklahoma.

"The Call in Yell County, Arkansas was simply blown away with Kappa Nu's generosity, volunteerism, sweet spirits, and love for kids." December 2<sup>nd</sup>, 2017 was an amazing afternoon for almost 100 local community members, including 29 kids in foster care! The Call in Yell County, a faith-based organization helps increase foster homes and support for foster and adoptive families, hosted their 2<sup>nd</sup> Annual Christmas Party.

The CALL in Yell County relies on community and church volunteers to make the party a success. Members of Kappa Nu heard of the opportunity and immediately decided to help! Kappa Nu hosted a canvas-painting table where each child could go home with a handcrafted Christmas cartoon painting. They helped students to creatively decorate beautiful Christmas cookies to take home. Kappa Nu also helped pack and distribute goody bags for the party and sponsored gifts for 4 families (9+kids)!

Kappa Nu member **Erin Aylor** and committee member for The CALL in Yell County shared, "Without a doubt, Kappa Nu's love of children and volunteerism with our party took it from so-so to SUPER!
